

How To Stop the War Machine

We want to stop the war. To stop a machine, you turn off the motor, and the motor of the new militarism is terror. Indeed, we are living in a reign of terror.

What fuels it? Some say oil, greed, Islam, social inequality, racial conflict, clash of civilizations. Yet none of those factors are new. Why the sudden flare-up?

The researchers and activists of the movement to investigate **September 11** ask you to consider this possibility:

Terrorism may be initiated by people for specific goals, as well as blind forces. Moreover, the key terror blows which overwhelm public opinion have often been arranged by militarist cliques to start a war. We seem to forget that this is how the USA usually goes to war!

Now consider this question: Which statement, if shown to be true, would turn Americans against the new militarism?

1. War is cruel, and inflicts suffering on innocents abroad.
2. A circle within our government abetted the 9/11 attacks, cynically murdering thousands of innocent Americans, for a blank check to invade the Middle East.

Proving the second point will unleash the full fury of the American people. Sadly, the first one won't.

Masses of evidence on government complicity in 9/11 are freely available. We appeal to all lovers of peace and liberty to push for full disclosure on September 11. It is the best, if not only tool to hand, to preserve our peace and freedom.

STOP the RACE to WAR

We all know the white race took over all the world's "new" lands, plus the lion's share of all its resources. Enough? No. The Anglo-American Bush-Blair axis is on the warpath to dominate all Asia's wealth.

Why launch wars and kill more brown kids for a few more years of cheap oil, before we bite the energy bullet anyway?

Because the war is all about empire, built on the backs of other peoples. (Less by shining white armor than by drugs, corruption, psy-ops and covert operations, divide and conquer tactics, war provocations, self-terror, and the like.)

A major newspaper says, "It isn't President Hussein that has changed. It is us." Bush says as much: "On Sept. 11, 2001, America felt its vulnerability." To what? Try as he might, from a scare using US military anthrax to dubious dossiers, he can't show we are vulnerable to Iraq.

Strange that this reign of terror comes with the Bush family. Influence-peddler George got his start in business with funds from the bin Laden family. Brother Jeb co-signed a defense plan for "genotype" bio-weapons, that target victims by race. Their CIA director father faked evidence to wage the Gulf War. Granddad Prescott, Hitler's banker, helped the Nazis to power, and founded the Bush family fortune by running the Reich's biggest steel mill on Auschwitz slave labor.

They're a menace - but they can't withstand the light of day. Don't hesitate. Join in demanding the whole truth on 9/11!

Did you know that

**400 family members of 9-11
victims filed a \$7 billion lawsuit against
the Bush Administration for complicity in 9-11
in knowingly allowing it to occur for political gain?**

The corporate media in the US are censoring the story. Yet, The Washington Post reports Bush and Cheney are blocking any 9-11 investigation.

9-11 victims, Americans, and the world deserve the truth. Bush is using 9-11 to beat the drums of war, and paint all dissenters as "traitors."

**MAINSTREAM ACTIVISTS, GET ACTIVE IN THE
DEMAND FOR TRUTH ABOUT 9-11.**

The BBC and Canadian TV have done full length documentaries accusing Bush of complicity in 9-11 - again censored by US media.

This flyer is a door to the storehouse of evidence suppressed and kept from the public view - books, videos, websites of independent researchers, and forums where you can link with millions worldwide demanding the truth about 9-11.
